- Motorcycle Mechanic Institute- Harley Davidson Technician

Personal:

- Currently working as a Full-time employee with the City of Glendale as a Public Service Representative. I take pleasure in working for the City where I can provide the community with safe drinking water. I'm planning on going back to school to pursue my educational career. I have been coaching at ASC for 8 years with various age groups. I enjoy seeing each kid develop and grow in the sport and I will always push them to reach higher goals that will help succeed on and off the field.
