Thank you, parents!

At ASC, creating a great soccer experience for the kids in our program doesn't begin and end with what happens on the field. There are so many other factors that go in to making this program great for our kids. It takes hard work and dedication from our coaches, staff, and volunteers to help make each session successful. More importantly, it takes the support of all our parents to make sure that every kid who leaves each session has good memories, great friendships, and a greater understanding of how important it is to have fun in the game. It has been a great session and the Coaches, Staff and Volunteers thank you for your continued support.
